For more than 40 years, YG Laboratories has been a recognized leader in next generation ingredient technology and cutting-edge formulations. As one of the most enduring and experienced private label manufacturers in the skincare industry today, YG has been the brand behind many of the brands you know and love. Specializing in high performance skincare, YG has long been a trendsetter in an ever-evolving industry, maintaining an unparalleled presence at the forefront of transformative skin science. With a vastly expansive library containing thousands of advanced formulas utilizing some of the most impactful ingredients science and nature have to offer, including multifunctional antioxidants, clinically tested peptides, plant stem cells and extracts, and stabilized vitamins and phytonutrients, YG provides effective, results-driven products free from harsh ingredients like formaldehyde-releasing preservatives, sodium lauryl and laureth sulfates, propylene glycol, and parabens.

For three generations, the family behind YG has held one core tenet as its most valued—your brand is our brand. By providing the best in educational and marketing support that the private label industry has to offer, YG has partnered with thousands of entrepreneurs and existing businesses alike to grow their brand to new and exciting levels. YG's wide array of award-winning private label and custom developed formulations offers solutions to address all skin types and conditions. From the independent and professional esthetician, to destination resort spas and the most discerning physician's offices and medical spas, YG has what your business needs.
